SUBJECT INDEX

A

Abscess, brain, superimposed on brain tumor, 484
Acetazolamide-enhanced blood flow values, in chronic subdural hematomas, 346
Adenoma, pituitary
  brain abscess superimposed on, 484
  treatment for, suprasellar meningioma development 16 years after, 443
Adult education, discussion groups, 400
Age, outcome of surgical excision of parenchymal arteriovenous malformation and, 258
Air-gun pellet, injuries to head and neck, 331
Alar ligament, calcium pyrophosphate crystal deposition in, cervical myelopathy secondary to, 498
Alzheimer's disease, treatment of, 84-en
21-Aminosteroid, U74006F, delayed adjuvant therapy for thromboembolic stroke after thrombolytic therapy, outcome effects, 60
Analgesia, in lumbar laminectomy, with local wound infiltration with bupivacaine, 120
Anesthesia, spinal, subdural hematoma following, 6
Aneurysm
  basilar artery, treatment, with Guglielmi detachable coil embolization, and intrathecal tPA, 144
  basilar complex, ruptured, orbitozygomatic access for, outcome effects, 354
  cerebral, *See* Cerebral aneurysm
  clipping, of cerebral aneurysm, normalization of transcranial Doppler middle cerebral artery velocities after, 541
  in cocaine users, 339
  de novo, vertebral artery-posterior inferior cerebellar artery, 473
  giant, supraclinoid internal carotid artery, combined intravascular parent artery and opthalmic artery occlusion for, 360
  intracranial
    incompletely clipped, 352
    transient enlargement of, during pregnancy, 527
  rupture and concurrent thrombosis of high grade internal carotid artery stenosis, 532
  ruptured, of basilar artery fenestration associated with multiple fenestrations of vertebrobasilar system, 469
  vertebral artery
    ruptured dissecting, coil embolization, with interlocking detachable coils, 476
    subarachnoid hemorrhage from, vertebral artery occlusion after, 149
Aneurysm clips, Yaşargil, magnetic characteristics of, 547
Angioma
  cerebral cavernous, proliferating cell nuclear antigen in, 364
  venous, arteriovenous malformation differentiated from, imaging tip for, 302
Anion channel blocker, L644-711, delayed adjuvant therapy for thromboembolic stroke after thrombolytic therapy, outcome effects, 60
Antibiotic prophylaxis, 481-3n
Apoplexy, pituitary, retroclival hematoma secondary to, imaging of, 79
Arachnoid cyst, imaging of, 395
Arachnoiditis, leptomeningeal, prevention, effect of urokinase in, 124
Arteriovenous fistula, cervical vertebral, balloon embolization, in patient with neurofibromatosis type 1, 265
Arteriovenous malformation
  in cocaine users, 339
  differentiated from venous angioma, imaging tip for, 302
  management of, 247-en
  parenchymal, surgical excision of, in patients over 60 years of age, long-term outcome of, 258
  posterior hippocampal, surgical extirpation of, 251
  radiculomeningeal, differential diagnosis, postmyelographic computed tomography in, 68
Ascorbic acid, concentrations, after traumatic brain injury in rats, 575
Ascorbyl free radical, after traumatic brain injury in rats, 575
Aspergillus, intracranial granuloma, 489
Autoregulation, cerebral, impaired, after brain injury, 128
Axis, neural arch of, fractures of, 326, *See also* Hangman's fracture

B

Basal artery fenestration, ruptured aneurysm, associated with multiple fenestrations of vertebrobasilar system, 469
Basal ganglia, germinoma in, with Down's syndrome, 28
Basilar artery, aneurysm, treatment, with Guglielmi detachable coil embolization and intrathecal TPA, 144
Basilar complex aneurysms, ruptured, orbitozygomatic access for, outcome effects, 354
Bleeding, arterial, acute spontaneous subdural hematoma related to, 9
Blood coagulation, *See* Coagulation system
Bone regeneration, role of fibroblast growth factor in, 242

Hypopituitarism, from sphenocavernous meningioma dislocation of pituitary gland, 43

I
Immunoglobulin, intravenous, for Guillain-Barre syndrome, 303
Infants and children
acute brain swelling during removal of supratentorial cystic lesions caused by contralateral extradural hematoma, 428
air-gun pellet injuries to head and neck, 331
cysts of velum interpositum treated by endoscopic fenestration in, 134
Eikenella corrodens skull infection, 389
hamartoma of lateral ventricle in, 23
intracranial pressure monitoring in, with fiberoptic devices, risk factors of, 16
Infection
cranioplasty following, 238
Eikenella corrodens, skull, 389
risk for, in intracranial pressure monitoring with fiberoptic devices in children, 16
thoracic and lumbar vertebral osteomyelitis, nontuberculous, surgical management of, 551
Information, excessive, handling of, 467-en
Instruments, *See* Surgical instruments
Internal carotid artery
aneurysm, supraclinoid, giant, combined intravascular parent artery and opthalmic artery occlusion for, 360
stenosis, thrombosis of, high grade, and concurrent aneurysm rupture, 532
Intracellular meningioma, *See* Meningioma
Intracranial aneurysm, transient enlargement of, during pregnancy, 527
Intracranial pressure
in chronic subdural hematomas, 346
monitoring, in children, with fiberoptic devices, risk factors of, 16
Ischemia, brain, *See* Cerebral ischemia

L
Laminectomy, lumbar, local wound infiltration with bupivacaine in, 120
Language dominance in the cerebral hemispheres, 81-rc
Lateral ventricle, hamartoma of, 23
Lecture presentations, effective, skills, 201
Lumbar laminectomy, *See* Laminectomy

M
Magnetic resonance imaging
of cervical myelopathy secondary to calcium pyrophosphate crystal deposition in alar ligament, 498
in differentiating cystic meningiomas from glial tumors, 284
of hamartoma in lateral ventricle, 23
of pleomorphic xanthoastrocytoma, 162
pulse sequences
differentiation of epidermoid or arachnoid cyst, 395
in neuroimaging, review of, 185
of retroclival hematoma secondary to pituitary apoplexy, 79
with spoiled gradient recalled acquisition in the steady state, imaging for presentation of causative vessels in hemifacial spasm and trigeminal neuralgia, 178
Magnetism, of Yaşargil aneurysm clips, 547
Malpractice cases, 501-en
Managed care, opposition to, 585-ed
Manpower, neurosurgical, needs, 316
Medical education
clinical discussion sessions ans small groups, 400
current status of training programs, 316
effective lecture presentation skills, 201
working with slides and transparencies, 303

Medulloblastoma, recurrence, after two decades, violation of Collins' Law, 571
Meningioma
brain abscess superimposed on, 484
cystic, resembling glial tumors, 284
of foramen magnum, 371
high-dose radiation-induced, 435
intrasellar, 447
sphenocavernous, pituitary gland dislocation by, 43
suprasellar, development 16 years after treatment of pituitary adenoma, 443
Microscope, multicoordinate manipulator, image-guided stereotactic neurosurgery with, 171
Microvascular Atlas of Head and Neck and Neuroanatomy: An Electronic Atlas (computer forum), 397
Microvascular decompression
in hemifacial spasm and trigeminal neuralgia, three-dimensional imaging for, 178
for trigeminal neuralgia, recurrence after, reoperation for, 562
Missile injury
air-gun pellet, to head and neck, 331
spinal cord, neurosurgical management of, 328
Mortality rates, for subarachnoid hemorrhage, 47
Moyamoya disease, study of, in Japan, 138
Muscle pain, in carpal tunnel syndrome, 115
Mycoses, intracranial granuloma, 489
Myelopathy, cervical, secondary to calcium pyrophosphate crystal deposition in alar ligament, 498

N
Napal, neurosurgery in, 512-ed
Neck injury, from air-gun pellet, 331
